Epic seven catalyst guide chart 2019 pdf free

The title character in the Sumerian epic, The Epic of Gilgamesh, completed a quest before building a wall to protect his people. Recommended set: Speed/Hp for PvP or Attack/Crit for PvE Aither (Ice 3*) You get him/her(?) right at the start of the game after clearing adventure 1-2 normal mode. His first skill gives attack down, but it is only 1 turn.

However, there are certain characteristics they all agree are part of the epic hero. First, the epic hero is from a noble birth (sometimes the child of a god) and are not commoners in their societies. 4. Nurture 2 MolaGora in the Forest of Souls - This one is also easy but takes time. These characters perform great acts of courage and strength as they navigate obstacles on a quest to find their purpose. Reach Level 40 with 10 Heroes - You get these just by playing the game and leveling heroes. They are the best bang for your buck when it comes to rewards. After returning home, the hero learns how to balance his old life with his new knowledge of the world and himself. His first skill decreases enemy hit chance. In the end, he returns to his home and the people he left behind. His third skill is an AoE combat readiness decrease against enemies. The final stage in the journey takes the hero home. A good 5 to the Twisted Fang. Another famous example is Harry Potter in Harry Potter in Harry Potter and the Sorcerer's Stone. 4-9 world. Can be done in 10 days if you do it daily. Complete 50 Urgent Missions - This takes forever. I suggest you 5 star her until you are able to pull another decent healer mentioned above. They're often the main character of the story and traditionally male, although the number of female epic heroes is growing. Another option is to do 3-2. World 2-9 is also a great place and its a direct map, so you can auto. Eliminate 90 Elite Monsters in Labyrinth mini bosses with the golden aura. There is some debate about the number of characteristics they share. Examples of Epic Heroes in Classical Literature Some of the best known examples of epic heroes come from classical literature. Using a soul burn extends the buff by 1 turn, so it is pretty good still. They look like these, in green or blue version. 2. He has the ability to complete great feats of strength, and he often demonstrates this during his guest. Her first and third skill can be AoE or single target. Give Hero A Gift - Finish Daily Mission - Sell natural 3 Stars, but make sure not to sell Kluri, Tiera, Hazel or any character you want to use in the future. The grind is long and hard. He is definitely an arena character you want to use in the future 1-5 method, but it will take quite a while. She hits very hard and you can speciality change her to make her even more powerful. Recommended set: Speed/Hp or Hp/Hp/Hp Cartuja is a lot harder to get. All you have to do is go into the node with a healer, preferably Destina, with no dps or support. This gives him courage for facing his most difficult challenge. You can get MolaGora seeds from special events, the transmit stone shop, conquest point shop and guild shop. Eliminate 200 Monsters in Adventure - Any map will do! 3. Reach Account Rank 5 - Easy, just level up! 2. She is useful in Abyss towers and PvP mainly. Complete 30 Battles with a Supporter - Pick anyone and friend the strong ones! 3. Gift 6 Order of the Shield Insignia Catalysts - Farm 6-2, 6-3 or 6-10. However, he often receives supernatural help to escape, especially if he must return with a valuable object. Some experts identify as few as five traits, while others recognize as many as seven or ten. They typically start as ordinary people who must go on an adventure and return as a changed man. Her second skill can give 2 stacks of poison and is useful against Wyvern or any high hp bosses that are not Earth element. It has a huge cooldown of 6 turns. Her first skill scales off speed and her second skill is a passive that reduces enemy combat readiness when she attacks, allowing you to give your team more turns in the long run. Here is another method... iMoneypit had posted on reddit on this following strategy where you spend 8 energy to do it all in 1 map: I'm not sure if anyone already posted this but here it goes. Achilles in Homer's The Iliad and Odysseus in The Odyssey demonstrate bravery and strength as they face obstacles and overcome them. He is a tank bruiser that scales with Hp. He has a defense break on the first skill, increased combat readiness on the second skill (passive) and AoE attack down. You can then feed her later to either her light version (Guider Aither) or feed it to make a 6 star unit. His third skill is a team regen + speed buff. Her first skill has 35% heal block, which can help against the heal the tree minion likes to use midway in battle. Will be easy since the urgent missions will take you even longer. Hope this helps anyone looking to not burn a ton of their energy farming Yuna now that her epic catalysts are available easily. Reach Devotion Skill Grade S with 5 Heroes - You will have to use 3 star heroes to achieve these. You will get them eventually. He is still decent though since he has the all important attack + defense buff in his 3rd skill. Luke Skywalker in the original Star Wars movie goes through all of the stages of a hero's journey as he battles Darth Vader. Characteristics of an Epic Hero Epic heroes have distinct characteristics that help readers distinguish them from other types of heroes. Pray to a Goddess Statue 80 Times - You can find these statues easily in your Labyrinth runs and also regular map or special event runs. Gift 3 Blazing Soul Catalyst. Prepare a good Earth team if you want to auto AND finish the map faster. Each run took about 5 minutes whilst autoing. In the next stage, the hero goes through a series of tests, including a temptation. Silk (Earth 4*) (Recommended) Silk is one of the best PvP speed starter due to her high speed and also her 3rd skill giving her speed boost to all allies. Then all you do is keep killing minions one by one while the alarm bots keep spawning more. First you kill the large robot. I don't advise this, because the rates there are horrible, so switch off if you're finished farming. The harder version but also drops Blazing Soul catalyst, which is a requirement to get Yuna. Clear The Sword Training Ground of Labyrinth - Complete Zone 2 of Tirel Castle in Chaos. Recommended set: Attack/Crit or Lifesteal/Crit (Abyss set after you complete floor 35). Also a candidate for Banshee Hunt if you need a speed support attacker. Send aid to your fellow Guild members 100 times - This one can be tricky. Other easy maps include 1-6,1-7 and 2-1. Available Connections Lorina (Dark 3*)(Recommended) Lorina is one of the best characters to get if you don't have a strong single target DPS unit. Eliminate 200 Boss Monsters in Adventure - If you farm catalysts, go to boss maps so you can do this as well. She will also be getting speciality change soon as mentioned on their official facebook post. She is definitely a big help in the early game when you are doing normal adventure mode. You then kill up to where you can take a right and come across two alarm bots and one robot with a shield. Check out how some players are using Silk in their adventures: Connection Tasks 1. The boss you'll fight is the Banshee Queen with her four minions spawning at half health. You can do the quick 1-5 run for friendship points only or just level her per usual to get it. (Pics added for examples just in case I didn't come across clearly). Recommended set: Speed/Hp or Hp/Hp/Hp Elson (3*) Used to be very good until it got hit by nerfs due to him being too good for a 3* unit alongside Tieria and Rikoris. 5. Then he navigates through unfamiliar territory, facing dangers and challenges along the way. In the end, it's all RNG! 4. His first skill decreases attack for 1 turn, 2nd skill is the barrier passive that casts when ally health goes below 50%. Gift 6 Blessing of the Orbis Catalysts - There are many areas you can do, but my personal favorite is 4-10. Examples of Epic Heroes in Contemporary Stories Epic heroes are also evident in contemporary literature and film. You can also try the Destina event's 7th stage on World difficulty if you're still grinding her currency. You can keep at it indefinitely until you reach 800. Then you use one or both heals on your healer until the alarm bots spawn their minions. Eliminate 600 Undead - I suggest 3-5 and 3-7 as they give Bone Flaked Bone catalyst. You will need to use Jecht and if you don't really like him, then Cartuja is not going to be easy to get. In some cases, he may not want to return to his ordinary life. Eliminate 300 Church of Ilryos Devotees - This one takes time and I recommend the following areas: 4-9 normal. This you can't fully auto as it is a dungeon. Gift 6 Twisted Fang Catalysts - (8-s2) is the map I used. Eliminate 800 Machinery - (Normal 2-9) nets you 18 kills through the dungeon, and consumes 10 stamina. First, he must leave home, a decision that often takes some encouragement from a mentor or supernatural force. She has attack buff + speed on her second skill. That means she will be even stronger than she is currently, kind of how Kluri becomes very good once she changes to Falconer Kluri. The keyword is labyrinth, so you'll have to pay attention by clicking where to teleport to. After successfully avoiding this temptation, he confronts his doubts and realizes his purpose. Within the departure, he hears a call to take on a task, refuses the call and eventually accepts it. Gift 1 Small Sun Badge Crystal - There are many areas that drop these. Steps of the Hero's Journey Literature professor Joseph Campbell identified 17 steps the hero takes in his journey. Picture Courtesy: [Porapak Apichodilok/Pexels] An epic hero is a character originally found in epic poems and ancient mythology. As some of you have no luck in the beginning for summons, the game has some characters that you can farm and get through connections. Make Friends - Setup you Supporter Team - Use stranger's supporters and send them requests. Someone on the Korean server cleared Abyss floor 80 with Jecht in this video: He has a cleanse passive on his second skill much like the artifact Wonderous Potion that removes 1 debuff from you or your ally. King Arthur and Beowulf are examples of epic heroes from British literature. Conquer Abyss Floors a day. In order to do so, you need to feed the same copies of the heroes to get it. She is also a good golem farmer with her skill kit. I think his first skill is quite weak due to only a attack down for 1 turn. Improve 7 Hero Friendship to Level 4 - Bring your Heroes to farm at 1-5 Stage(only costs 2 stamina) - Use Way point to exit the Portal - Almost 3 times more effect than normal stages. Gift 300 Stigma - You can get these in adventure mode and Abyss tower as well. Just keep doing dispatch missions from the High Command in your sanctuary. 3. The Hero's Journey It's difficult to ignore the similarities between epic heroes because they all follow predictable plots in their stories. Keep in mind you can do this for other connections like Jecht. Eliminate 300 Mysterious Magic Test Subjects - This one takes a small grind but below is the best area for farming these little broomsticks: Recommended set: Attack/Hp Yuna (Ice 5*) (Recommended) Yuna, the only natural 5* on the connections list. You need to do enough adventure or special event maps to get them randomly. Her damage isn't as good as Sez or Karin but you can get her if you need a decent attacker. She can also be puled from the covenant summon if you are lucky. Recommended set: Speed/Hp for Arena, Speed/Crit for PvE Hazel (Flame 3*)(Recommended) Hazel is a prerequisite to getting Yuna, which we will get to in the next section. Camp in Labyrinth 10 times - Easy one to achieve. So you can get 3 a week if you buy them each week. The hero's journey is evident in all of the major epic poems from classical literature to contemporary tales. You can farm all of Yuna's 800 kills with one run in 2-9 normal mode. There are plenty of other maps that drop the Ultra Fangs, but these are the widely spoken ones. His second skill is a weak AoE attack with a minor heal. At the beginning, everyone needs catalysts and upgrade materials, so people giving away tougher catalysts will be rare, but it just takes longer. If you don't want to manual farm. Hope this helps! Have a look below to find these monsters: Do 5-1 if you just want to auto and 5-2 if you want to manual and get more per run. MORE FROM REFERENCE.COM Welcome to the connections guide. Despite his station in life and great capability, the epic hero generally does not boast about his accomplishments. If you can't pull decent healers, he can do a good job by keeping your team healthy. Recommended set: Hp/Def/Def or Counter/Def That concludes the connections guide. He also deals more damage when below 50% health. Recommended set: Hp/Def/Def or Counter/Def That concludes the connections guide. He also deals more damage when below 50% health. Recommended set: Hp/Def/Def or Counter/Def That concludes the connections guide. He also deals more damage when below 50% health. Recommended set: Hp/Def/Def or Counter/Def That concludes the connections guide. though, especially if you have terrible luck with getting good healers. (2-8) is linear, but only nets 9 kills, and requires 8 stamina. But his third skill is pretty good in the arena. Just takes a bit of time. Reach Gold III League in Arena - Might take a while depending on whether you have a solid team setup. She is quite a versatile character. Gift Ultra Fang Catalysts - (6-1) only drops Ultra Fangs as their catalysts; (5-7) is another good alternative (I used this one), but it drops two catalysts. You can take on 20-35 of them in 1 single run, which is very effective when it comes to cost/stamina ratio. Reach Friendship Level 3 with Hazel - You will need to get Hazel first to start this quest. Recommended set: Hp/Hp/Hp or Hp/Def/Def Crozet ($4\star$) Crozet is a defensive tank and can protect teammates with barrier. Very tedious process too! 3. Gift 800,000 Gold - Self explanatory. Below are the locations: 3-7, 3S-3, 4-2-8, 4-2-9, 7-6, 9-1-3, 9-1-4, 9-1-5, 9-2-10 10-1, 10-3, 10-5, 10-7, 10-9, 10-S1 Recommended set: Attack/Crit or Crit/Crit/Crit Jecht ($3\star$) Jecht is a bit of an underrated unit and people often overlook him since he is a 3 star unit. He is a decent starter healer but later on if you pull or get Hazel, Angelica, Achates, Lots or Destina, she will fade in the background. Her first skill can stun, her second skill can stun at a 80% chance and her third skill is an team defense buff and AoE provoke, but only at 35%. The good part about her is that she is a dark unit, so she does not get a penalty in doing less damage due to elemental disadvantage. This may be due, in part, to the fact that he typically receives supernatural help on his journey. Eliminate 600 Bellmice - I personally will do 3-3 (normal or world difficulty) to get this one. Check out this video below. There are three distinct parts to this journey. Could change as the game progresses and many people have more 6* units. The more he gets attacked, the more he moves. Eliminate Special Creatures in Adventure - Try 5-1 or 5-2(Dungeon) and kill the Azimanus. She is not very useful for bosses as most of them are stun immune, but she is definitely useful in the arena! Connection Tasks 1. She is comparable to most 4/5 * single target attacker. If you have level 1 buildings for Administration, Floating Station and Barracks, I recommend that you do the 1 stamina missions that takes 2 hours. I picked (2-9). Below is a video of a 5 * Lorina doing test damage to Celestial Mercedes in 10-10 normal difficulty: Connection Tasks 1. Complete 50 Dispatch Missions - This one is easy. We will be going over all the units you can get and recommend the ones that you should be getting. You can get and recommend the ones that you should be getting. You can get and recommend the ones that you should be getting. your team get more turns before the enemy. Connection Tasks 1. Eliminate 300 Wild Animals - This is easy. Hazel is actually a decent healer that has a 2 turn team attack buff + heal, which is super useful in PvE and low arena PvP.
